PERSONAL STATEMENT

With more than two years of experience creating and managing projects to develop and improve user-focused websites and applications, I am a front-end developer who is highly skilled, and adept in organising projects, leading teams, and writing well-written code. Knowledgeable about modern front-end frameworks like React as well as HTML, CSS, and JavaScript. Seeking to apply my experience in a demanding position that encourages development and creativity.

PROFESSIONAL EXPERIENCE

DEC 2022 - **Lead Front End Developer/Project Lead**
JULY 2024 Pro-Vision Innovation - Software development- Nigeria

PROJECT LEADERSHIP

- Managed and led multiple front-end development projects from conception through completion.
- Coordinated with cross-functional teams, including UI/UX designers and back-end developers to ensure project alignment and timely delivery.
- Conducted project planning, scheduling, meetings, and resource allocation to meet project milestones and deadlines.
- Facilitated daily stand-ups, sprint planning, and retrospective meetings to maintain project momentum and address any issues.
- Developed detailed project documentation, including project plans, timelines, and weekly status reports.

FRONTEND DEVELOPMENT

- Designed and implemented responsive, user-focused web applications using HTML, CSS, JavaScript, and React.
- Ensured the technical feasibility of UI/UX designs and optimized applications for maximum speed and scalability.
- Collaborated with designers to create clean and intuitive interfaces, improving the overall user experience.
- Integrated RESTful APIs and worked closely with backend developers to ensure seamless data flow and functionality.
- Conducted usability testing and gathered user feedback to iteratively improve the user interface and experience.

COMMUNICATION AND COLLABORATION

- Acted as the primary point of contact between the front-end development team and other departments, facilitating clear and effective communication.
- Presented project updates, progress reports, and demos to stakeholders and executive leadership.
- Managed client relationships, gathering requirements and providing technical insights to align project outcomes with client expectations.

PROBLEM-SOLVING AND INNOVATION

- Identified and resolved complex technical issues and roadblocks, ensuring project continuity and success.
- Researched and evaluated new technologies, tools, and methodologies to continuously improve the development process and product quality.
- Led initiatives to refactor and optimize legacy codebases, enhancing performance, maintainability, and scalability.

CODE QUALITY AND BEST PRACTICES

- Established and enforced coding standards and best practices within the front-end development team.
- Reviewed code contributions from team members to ensure consistency and adherence to best practices.
- Implemented automated testing (Enzyme) and continuous integration/continuous deployment (CI/CD) pipelines to enhance code quality and deployment efficiency.
- Provided mentorship and guidance to junior developers, fostering a culture of continuous learning and improvement.

PROJECTS

- Created a personal portfolio website using HTML, CSS, JavaScript to showcase projects and skills.
- Utilized Webpack for module bundling and optimization.

EDUCATION

2017- 2022

Bachelor of Science (B.Sc), Human Anatomy

University of Nigeria, Nsukka.

SKILLS & EXPERTISE

- **Languages:** HTML, CSS, JavaScript, TypeScript
- **Frameworks:** React, Redux, jQuery, Bootstrap, Tailwind CSS
- **Tools:** Git, Webpack, npm, Yarn, Babel, ESLint, JIRA, Trello
- **Design:** Responsive Design, UI/UX Design, Adobe XD, Figma
- **Testing:** Jest, Enzyme, Cypress
- **Others:** RESTful APIs, Agile Methodologies
